5. STAFF REPORTS

- a. CAO Update – B. Payette, CAO
Submitted for information

The CAO provided an overview of the written report and further reported that the next step taking place at the end of the week is to pull DW2's pump for replacement. Hopefully this work can be completed without any issue. The CAO also reiterated that the with bringing DW3 online and having DW2 as backup, is not going to result in doubling the amount of water but instead is confirming the security of our water.

Leonie Lake Dam Decommissioning Process – Staff are looking at a possible 'breach' option rather than a full on decommissioning and are working with the Province on what options are the least expensive for the municipality. It was inquired as to if the goal is to offload the costs to the users rather than the municipality so that the TNRD farmers and user groups still maintain access and use and staff reiterated that that is an option that is being explored.
