*\*submitted for information*

It was also added that due to the extreme fire risk, as of today, Category 2 and 3 fires are now prohibited in the District of Barriere. This notice has been published on the District's website, E-News and Social Media channels.

## **6. CORRESPONDENCE**

- a. For Information

- b. For Action

- i. Barriere Curling Club re: Cooling Centre Request for Transportation

The Barriere Curling Club's correspondence requests that the District consider funding, organizing and operating a transportation component for residents who may require assistance in accessing the free Cooling Centre provided by the Club within the height of the summer.

It was agreed that the program is extremely valued by not only the District, but to all those who find the reprieve essential during periods of intense heat events.

It was reported that unfortunately, public transportation services are highly regulated by legislation and the District does not have the means to undertake that process; at least, in time for this upcoming season. The suggestion was made that the Curling Club reach out to Simpcw First Nation as they provide transportation service annually to the Fall Fair and may be in the position to be able to assist.

**Moved by Councillor Lodge  
Seconded by Mayor Kerlake  
THAT the correspondence be received for information.**
