**Subject:** frustration of medical services

I heard that 5 municipals in BC have concerns about medical services. I live in Coquitlam now, as a victim of poor medical services in Northern BC, I waited 4 years for a major bypass surgery in Kitimat no luck. In 2001 I took an early retirement and moved to Lower Mainland, I waited for 4 days and rushed into emergency surgery.

I was a SD80 (now defunct) School Trustee, elected in 1993, Vancouver had a wave of Hong Kong immigrants, they had a campaign of teaching Chinese Language in schools, Vancouver NPA school trustees stirred up the issues of wiping small towns out to get the money to fund the campaign. I had a big voice of opposition because it was a misuse of multiculturalism, or namely REVERSED RACISM. NPA found out elimination of School Boards not good enough, further these crooks advised the NDP government to close rural hospitals.

As a result, you are lucky you still have a first aid station and unreliable, overworked Medivac service.

In 1952 the Socred Governmnet had changed the old saying "BC is nothing beyond Hope", but NDP and Liberals changed that to favour Vancouver only. Rural BC is only their cash cows

Withholding provincial taxes you need more partners. I do wish NPA will be wiped out on Oct. 15 in Vancouver.

thank you for making this motion.
