SCHEDULE A

District of Barriere Traffic Bylaw No. 226

SECURITY AND INSURANCE CONDITIONS FOR PERMITS

An Applicant who is required to provide a Permit deposit as a condition of the issuance of a Permit may, at the Applicant's option, provide the Permit deposit by:

- (a) a cash deposit,
- (b) an irrevocable letter of credit, or
- (c) another form of security satisfactory to the Public Works Manager.

If a Permit holder fails to promptly repair any damage, compensate for any injury or loss resulting from work, activity or other thing that is subject to the Permit, or fails to fulfill the obligations of the Permit within the specified time, the District may draw upon the deposit or security provided by the Permit holder and may take steps to remedy the damage, compensate for loss or injury, or fulfill the obligations of the Permit holder. If there are not sufficient funds on deposit or available through the security provided, to cover the costs, the District may recover any shortfall from the Permit holder.

Every Applicant for a Highway Use Permit must:

- (a) if required, place a deposit with the District in an amount sufficient:
 - i.) to pay the cost of repairing any potential damage to the Highway, or any installations therein or thereon, by reason of the things to be done pursuant to the Permit; or
 - ii.) to ensure that any obligations imposed by the Permit are fulfilled and completed within the time specified in such Permit; and
- (b) provide the Public Works Manager with complete, accurate and current plans and specifications of any work to be undertaken on, over or under a Highway.

Where any completed work on, over or under a Highway is to be taken over by the District, the Permit holder shall maintain such work for a period of one year from the date of completion of the work, as certified by the Public Works Manager.

Where any alterations or adjustments to completed works on, over or under a Highway are required due to reconstruction of a Highway during the one-year maintenance period, the Permitholder shall pay the cost of such alterations and adjustments.

An applicant for a Highway Use Permit must obtain and maintain insurance against liability throughout the term of the Permit, and for any applicable maintenance period, on terms acceptable to the Public Works Manager. The insurance policy must name the District as an additional insured, include a cross-liability clause and provide that the policy shall not be cancelled or materially altered unless and until the District has received thirty (30) days notice in writing.

Upon final completion of work carried out under a Highway Use Permit or the end of a maintenance period, as applicable, any amount that is not used or required by the District to remedy a default of the Permit holder or any loss, injury or damage otherwise resulting from the work or from non-compliance with the Permit or this Bylaw will be refunded to the Permit holder.

Work carried out under a Highway Use Permit must conform in every respect to plans and specifications approved by the Public Works Manager.

Every Permit holder must ensure compliance with this Bylaw and other applicable enactments, and that all terms and conditions of a Highway Use Permit are met.
